

Capstone Project Charter

Project Name: LifeProgreX
Capstone Clark University

1. Project Overview & Objectives

LifeProgreX is a mobile application designed to revolutionize how individuals track personal growth. By integrating health data, habit tracking, and generative AI, the project aims to provide a "Life Resume" that reflects true holistic progress.

2. Deliverables

Objective	Project Deliverable	Description
Objective 1	Habit Engine	CRUD operations and streak logic.
Objective 2	HealthKit Sync	Integration with Apple Health data.
Objective 3	AI Coach	Gemini AI powered chat interface.

3. Risk Management Plan

Risk Factor	Probability	Impact	Action
API Rate Limits	Medium	High	Implement caching.
Data Privacy	Low	High	Standard Encryption.
Compatibility	Medium	Medium	Multi-platform testing.

4. Project Organization

Role	Name	Responsibilities
Project Manager	Satya Pranav Nagunoori	Coordination, Architecture.
Lead Developer	Naga Sai Donthi	UI/UX, Frontend logic.

Role	Name	Responsibilities
QA Engineer	Bhanu Sai Priya Gomasani	Testing, Validation.
